OCT 30 1956

MEMORANDUM FOR: Mr. Leon Kelston, Chairman
Chemical Task Group, EDAC-WG-I

FROM: Acting Chief, Strategic Controls Support Branch
CIA/RR/S/C

SUBJECT: Status of Polyethelene Production in the Sino-Soviet Bloc and Technical Aspects of Strategic Control

1. As agreed at the Chemical Task Group meeting of October 16, 1956, the CIA representatives have prepared comments concerning the status of polyethelene production in the Sino-Soviet Bloc (Attachment A), and technical definitions for grading polyethelene which can be considered for strategic control purposes (Attachment D).

2. Attachment B, when detached from this memorandum, is classified no higher than CONFIDENTIAL.
